**President of the Board of Directors:** As the President of DVHS, a private licensed, accredited and “approved” alternative high school for “at-risk” youth (disruptive, over-age, motivationally challenged and truant) that is in its 38<sup>th</sup> year of operations servicing private families and twelve (12) different school districts in our region, I have worked extensively with a myriad of issues affecting “at-risk” youth in Philadelphia County and beyond. My role as President has led me to meet with countless students and families living in our around Philadelphia and has provided me with critical insight about the services they need, and the problems that plague these children and our society. I personally designed and built a custom educational software package that is proprietary for DVHS that has been reviewed by the Governor of Pennsylvania’s representatives and the Governor of Arizona because of its ingenuity and ability to streamline educational management and hold educational staff accountable at all levels of an organization (featured in the *Philadelphia Business Journal*, November 2007). I have worked with Representatives from over fourteen (14) local school districts, including Philadelphia regarding alternative education issues. Under my leadership, DVHS was recognized as a Pennsylvania Department of Education Model Program in 2005 and received a Model Program Award. I have substantial expertise in all aspects of educational operations and management, including, staffing, certifications, programming, curriculum, administration and emotional/behavioral support services.

*Alternative Education Advisory Committee of Pennsylvania*, Philadelphia, Pennsylvania (2000 to Present)

**President of the Board of Directors:** As the President of AEACPA, a non-profit entity that provides extensive service to the Pennsylvania Department of Education, DVHS and other worthwhile charities, I have personally participated in drafting the Commonwealth of Pennsylvania, Department of Education’s Best Practices in Alternative Education publication. I also designed the sample Program Placement Agreement contract that is utilized by virtually every school district across the Commonwealth, and was posted on the Department of Education’s website with my permission, to insure that every school district was holding every alternative education provider accountable, and that all I.D.E.A. requirements for “at-risk” youth were being satisfied. I have also authored countless White Papers regarding truancy, drop-out rates, and other problems plaguing “at-risk” youth, which proposed effective and pragmatic solutions for these ongoing issues.
